

Find information how to create and use virtual environment that might be helpful to scikit-learn

```
Anaconda Prompt (anaconda3) - conda install scikit-learn - conda activate myenv - conda install ipykernel

(base) C:\Users\yulia>conda activate myenv

(myenv) C:\Users\yulia>conda install scikit-learn
Collecting package metadata (current_repodata.json): done
Solving environment: done
```

```
Anaconda Prompt (anaconda3) - conda install scikit-learn - conda activate myenv - conda install ipykernel

environment location: C:\Users\yulia\anaconda3\envs\myenv

added / updated specs:
- scikit-learn
```

```
Anaconda Prompt (anaconda3) - conda install scikit-learn - conda activate myenv - conda install ipykernel
